GLOSSARY

Organic

Stands for biological production and species-appropriate animal husbandry. This label is for products that correspond to the EU guidelines for biological agriculture.

veggie

Stands for products that are produced without ingredients of animal origin, except milk, beeswax, bee honey and egg.

vegan

Stands for products that are produced without any ingredients of animal origin.

gluten free

Stands for products that do not contain grains such as wheat, oats, spelt, rye, barley, green spelt and khorosan wheat.

lactose free

Products whose lactose is already split up and therefore easy digestible.

Fruit Juice %

Fruity intensive flavour with corresponding higher fruit juice content.

sour

Sparkling sour taste that adds that certain magical something.

spicy

Fiery hot taste. Not suitable for children!

30% less sugar

Note on products that contain less sugar.

less sugar

Note on products that contain less sugar.

sugar free

Note on products that do not contain sugar.

Customized shape

Individually produced fruit gum according to your requirements. Various colours, flavours and shapes are available. Just ask us.

home-made

Made in our in-house chocolate factory.

HARIBO Exclusive cooperation

Exclusive HARIBO cooperation

As an exclusive HARIBO cooperation partner we have been packaging primarily fruit gum and other products from the HARIBO range since 2001.

You can choose from a huge product range and changing products for children and grown-ups.

Sweetware GmbH & Co. KG
Goods from Cooperation Partner

HARIBO

Climate-neutral production possible! - Climate Partner -

Your advantages:

- Contribution to the global climate protection
- Support of the credibility of your sustainability strategy
- Increase of the credibility of your sustainability strategy
- Climate-neutral label /certificate for more transparency
- Certificate for your sustainability report

Sweetware

Family business since more than 25 years

Large product range including fruit gums, chocolate made in in-house chocolate factory, hard boiled sweets, dextrose, peppermints, snacks and much more

Wide range of finishing options for packaging and tins

Customized production

Charitable cooperation

Production according to the highest certification standards

Made in Germany

We support you in the development and implementation of individual ideas.

Sweetware

Organic certified

Our company is annually controlled and certified by the German inspection body DE-ÖKO-007. The prescriptions do also include the control and the labelling of organic products.

This prevents the improper use of terms such as "organic" and "biological" and therefore ensures the customer's trust in organic products.

DE-ÖKO-007

FSSC 22000 Certificate

With this certificate we emphasize our demand of sticking to the highest regulations of food processing.

The FSSC 2200 certificate is a world wide acknowledged proof for a comprehensive management systems of food safety.

FSSC 22000 is based on ISO standards, is acknowledged by the Global Food Safety Initiative (GFSI) and highly accepted.

Our compostable foil

An environmentally friendly packaging option

We are proud to offer you a sustainable and environmentally friendly packaging alternative that can replace our conventional standard foils - our compostable film. This innovative solution is based on renewable raw materials and helps to reduce the environmental impact of conventional packaging materials.

With this foil, we can package most of our products in an environmentally friendly way. It is available in white and transparent versions and we also offer you the option of printing your individual design onto this environmentally friendly foil. This allows you to effectively present your brand and message without increasing your environmental impact. In addition, the compostable foil can be combined with climate-neutral production.

The particular strength of our compostable foil lies in its certification as biodegradable and compostable in accordance with all essential composting conditions. Our foil meets the strict requirements of the European standard EN13432 as well as the American standard ASTM D6400, which underlines its high environmental compatibility and sustainability.

By using our compostable film, you can not only make your packaging solutions more environmentally friendly, but also make your contribution to protecting our planet. Together we can take a step towards a more sustainable future.

The eco-friendly alternative - compostable foil -

We offer you the possibility to advertise eco-friendly:

- Eco-friendly packaging alternatives
- Sustainability
- Certified by EU regulation EN13432
- Certified by American regulation ASTM D6400
- Production same as with standard foil

Our sustainable paper foil

The environmentally friendly packaging option with many advantages

Our commitment to the environment is reflected in our innovative packaging solution – paper foil. This environmentally friendly packaging option offers numerous advantages that not only protect the environment, but also offer economic and ecological benefits.

Our paper foil is recyclable in the paper recycling process and is made from renewable raw materials. This environmentally friendly paper helps to minimize the environmental impact of packaging and significantly reduce the consumption of fossil raw materials. Furthermore, this also leads to a reduction in carbon dioxide emissions compared to conventional materials.

By using the paper foil, you can not only act in an environmentally conscious manner, but also benefit from the economic and ecological advantages. Together we can shape a sustainable future.

Products that are packaged in this foil are e.g. the organic crunchy edges, rice pastries and Leibniz Minis, which are also available as a gluten and lactose-free version. The paper foil can also be used for other bag products. Please ask us about this.

Cocoa Horizons - The fair chocolate -

Our chocolate products such as advent calendars, naps and hollow body figures are made from Belgian Callebaut raw chocolate. They are produced in our in-house chocolate factory.

By purchasing these products you'll support the Cocoa Horizons program which helps cacao farmers and their community in the producing countries in Ghana and on the Ivory Coast.

Further information is available at

Specials

Welcome to the world of our instant soups. A pleasure that comes from the heart!

In the heart of Germany, a Bavarian family began their culinary journey. Their goal was to create the best organic instant soups.

They selected, with a lot of love and care, the best ingredients from controlled organic cultivation to create delicious, low-calorie recipes. Their passion for authentic German specialties can be tasted in every cup.

These instant soups are quick to prepare and, above all, organic! Each variety tells a unique story and leaves nothing to be desired in terms of taste.

Enjoy the variety of 35 years of family tradition and discover the delicious specialties from Germany that you can taste with every spoonful.

Enjoy Italian cuisine with our organic premium pasta!

This pasta is produced by a family-run business and according to traditional Italian recipe.

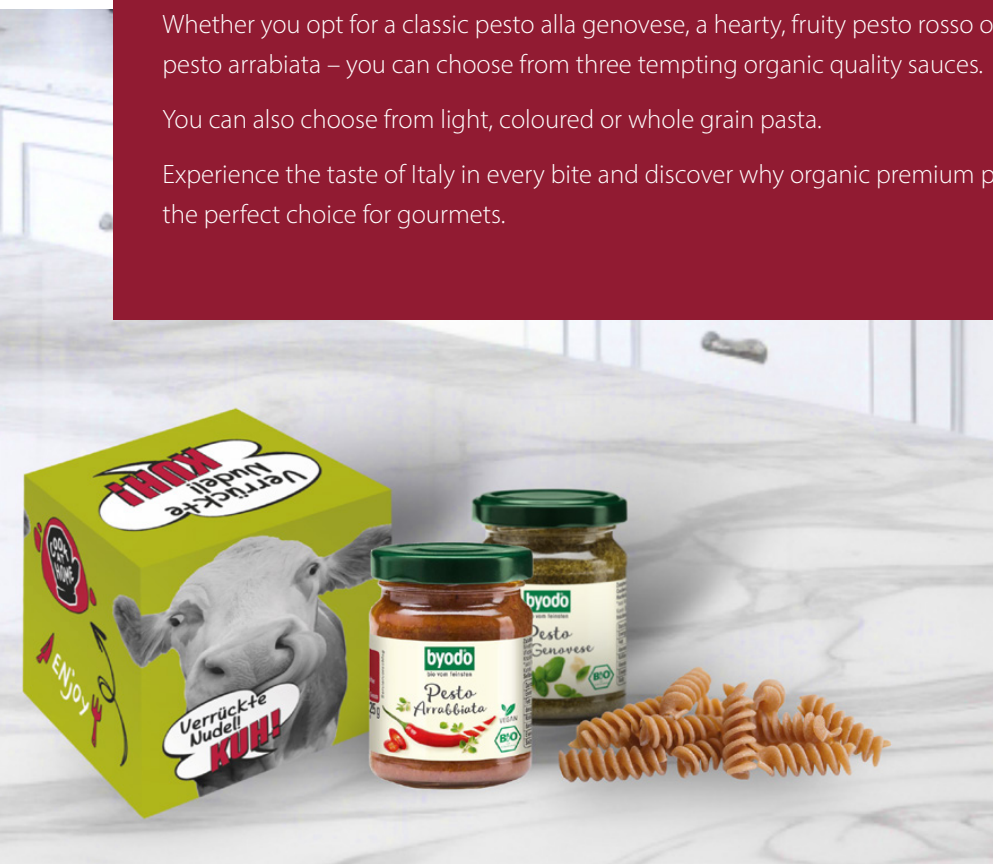

The base of this unique organic pasta is durum wheat that has been grown in Italy.

The rough surface of each noodle allows your favourite pesto to adhere perfectly.

Whether you opt for a classic pesto alla genovese, a hearty, fruity pesto rosso or a spicy pesto arrabiata – you can choose from three tempting organic quality sauces.

You can also choose from light, coloured or whole grain pasta.

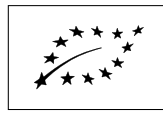

Experience the taste of Italy in every bite and discover why organic premium pasta is the perfect choice for gourmets.

Advices for a better understanding

Our team is always pleased to answer your questions about our products, artwork, digital data and conditions.

We like to respond all our customer's inquiries, so we're asking you to please be patient if you experience any waiting time during a phone call to us.

Print template

Please request our templates and place your layout on it. The templates are coordinated with our printing machines and packaging technique on a scale of 1:1. Please put in your artwork with a vector program.

We recommend Adobe Illustrator in order to prevent compatibility problems. Define your choice of colours for full tone print using Pantone C or HKS K, for 4-c Euroscale in CMYK. Then you put in your picture in 300 dpi, on a scale of 1:1 (as TIFF, PSD or JPEG).

Important: Please vectorize all text or send us the font case in order to enable a system spanning workflow. Please create your artwork on the level in the client area and save your data as either PDF X-4 or higher, AI or EPS. The levels should stay. Send us your artwork via email or FTP. Once we receive your data we will set up your print approval including all the following information: size of product, colour used, ingredients manufacturer details or "manufactured for", and best before date.

We will email you this proof as a PDF. Please look over all text and shelf life carefully. Should you find any errors or want to make any changes, we will take care of that immediately and then send you a new print approval. When you are satisfied, please sign the print approval and send it back to us. The imprimatur is an obligatory component of your order. Long correction times may delay the date of delivery.

Colours

Each printing method is done with either HKS- or Pantone colours. When using full tone colours, please always specify your choice of colours in either Pantone C or HKS K. Print results can differ depending on printing material.

We work with translucent colours. When printed on clear foil or tins (except white tins), the colors differ considerably from the color guides. Therefore we recommend a white background print. Our technical advisors will gladly answer your questions.

Printing methods

Flexo printing for promotional bags

Misregisters are possible due to the printing method. Additionally, you may see thin white lines on the seams of the bags where the printing plates meet. Grid pattern size from 36 – 48 L/cm, depending on the motif.

Pad printing for all tins and boxes

Misregisters are possible due to printing method. When printing on not-white tins, there will be colour variations and we therefore suggest a white base or a double print (either is considered as an additional print colour). Slight scratches and irregularities are material-dependent. Grid pattern size from 60 L/cm, depending on the motif.

Digital printing

Here, we exclusively use 4-c Euroscale. Pantone colours are simulated using the CMYK model, so they resemble the colour sheets as much as possible. Misregisters do not occur. The partial translucent CMYK colours do not have a covering effect and therefore the colour on non white tins can differ. Furthermore there can be a slight visibility of stripes such as scratches and unevenness. If necessary we will check in advance if the artwork can be printed on our product.

Manufacturer details

According the **European Union Regulation No. 178/2002** for the improvement of food safety, all products must be provided with an information of the producer. This information is not an advertising measurement, it only serves for information purposes and for the compliance of statutory provisions. The reseller or respectively the end customer will decide which address will be used on the product or the packaging. If there should be no information at all, the producer's address will be used.

The declaration according to food law will be written in the country-specific language as determined by the European regulation no. 1169/2011. If the client requires a declaration in another language we can not guarantee the marketability of the product.

In order to meet the demands of the German packaging Act and to free our clients from the duty of informing the responsible packaging register, we print the note "produced by LUCID no. DE3846331446078" on every reporting packaging. With this labelling, Sweetware is considered as reporting producer. The corresponding packaging will be reported to the „Duales System“ and the packaging register by Sweetware.

Order confirmation

After your print release has been issued, you will receive your order confirmation, including all of the following details: product description, quantity and price, date of delivery, as well as any special agreements. For mutual security and in order to avoid misunderstanding we confirm agreed upon conditions, delivery time and technical guidelines in writing.

Quantities

It is not always possible to print the exact quantity ordered therefore personalised goods may be subject to 10% over or under run. For non standard productions this can even be 15%.

Minimum shelf life

The date indicated on our products is only valid if they are stored in an environment that is cool, dry and protected from light. Especially avoid variation in temperature on chocolate products, because in case of that there could build up a greasy white covering. It is advisable to consume our fruit gum products within 6 months to guarantee the best quality.

Perishable food

Food is non-returnable. Please check our goods immediately after receipt and issue a complaint right way. We cannot admit any delayed complaints. As soon as goods leave our house they are no longer under our control and we, therefore, cannot assume any responsibility for quality and food regulation.

Delivery date

Delivery dates are indicated on your order confirmation. Dates and commitments are scheduled with a forwarding company of your choice. We cannot be held responsible for delivery delays caused by that company or a higher power.

Samples

Samples will in general be charged. These charges can be cleared with the invoice of the resulting order. This is going to be checked by Sweetware.

Sweetware has got the copyright and the intellectual property on all sent samples to the customer. These rights exist, even if the samples are paid of the customer.

The customer is committed to payment, if he places his order somewhere else, after he received the samples from Sweetware.

Sweetware reserves the right to assert injunctive relief claims.

Damages

Please report damages immediately. Mark those caused by the forwarding agency on the consignment note and have the carrier confirm them right away. If possible, take a picture of the damage. Photos are always a welcome proof. You cannot assert damaged pallets as freight damage, if they are not marked on the consignment note.

Complaints

Please document the incident with an adequate quantity of damaged products for complaints regarding either print, manufacturing or food. Food should be stored properly: cool and dry. Should you, nevertheless, have a reason for a complaint, please contact us within 14 days of the delivery of our goods. The best before date is indicated on each product or on the packaging unit.

Our product are packaged by weight or quantity. Variations of quantity per packaging unit are dependent on the packaging machines and the product itself. The total quantity is exact, recorded and equal to the ordered amount. Should you find irregularities in quantity per packaging unit, please check the total quantity.

Price fixing

Due to the current market situation, we reserve the right to adjust prices accordingly at short notice.

Terms of business

Our regular terms of business apply in addition to all the information provided above. (If they are not attached, you may request them.)

We wish you success with your advertisement.
